DETAILED ACTION

Allowable Subject Matter

Claim 1-15, 17-36 and 38-62 are allowed.

The following is an examiner's statement of reasons for allowance: The following is an examiner's statement of reasons for allowance: Regarding independent product claims 1 and 12, Kaikuranta (US Patent 6633241) teaches an electromechanical assembly comprising a printed wire foil and a cover part but does not teach the structural limitations implied by the following: the electromechanical assembly is arranged to be an insert during an injection molding process to produce the cover part so that the electromechanical assembly and the cover part are arranged to compose an integrated combination which is detachable from the electronic device, which is read structurally as an electromechanical assembly that is an insert in the injection molded cover part so that the electromechanical assembly and the cover part are arranged to compose an integrated combination which is detachable from the electronic device, furthermore there is no evidence in the prior art that suggest having the electromechanical assembly as an insert in the injection molded cover part would be obvious. Yoneda (US 2003/0075825) teaches an electromechanical assembly arranged as an insert in an injection molded cover part but does not teach means for electrically connecting the electromechanical device to an electronic device. In fact Yoneda teaches that it is not desired that the electromechanical assembly have electrical contact with an electronic device to avoid short circuit, therefore the combination of Kaikuranta and Yoneda would not be proper. New independent product

claims 44,55 and 61 as well and new method claims 19 and 34 are allowable for containing the same allowable subject matter as the allowed claims described above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
